

CONNECTING SOFTWARE PRESS KIT

OUR COMPANY

Connecting Software delivers highly-secure integration and synchronization business software, as well as cybersecure compliance solutions for enterprises and public sector customers worldwide.

We have been providing software solutions to synchronize data and connect enterprise systems for over two decades. We serve over 1,100 customers globally, particularly in highly regulated sectors such as finance, public service, and defense.

Our solutions work automatically in the background to increase productivity, improve security, and ensure compliance. They easily connect with popular business applications like Microsoft Dynamics, Office 365/Microsoft 365, Google Workspace and Salesforce. They also incorporate proven, cutting-edge technologies such as blockchain for data integrity and authenticity, and data diodes for unidirectional secure data transfer in high-security environments. This strategic application of advanced technologies ensures effectiveness and reliability for clients' critical operations.

INDUSTRIES WE SERVE

Government

Tailored for digital sovereignty and secure data flows across departments

Military & Defense

Mission-critical integrations and synchronizations for tactical operations

Financial Services

Compliance-aware solutions that meet data governance and auditability requirements

Technology

Creating new avenues for growth, helping teams work better together

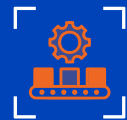

Healthcare

Keeping healthcare compliant with data protection regulations

Legal

Reducing legal headaches by authenticating documents

Manufacturing

Improving efficiency by streamlining document and task management

Retail

Helping B2C companies reach customers easier

Education

Empowering educators by taking out IT headaches

Security

Delivering cybersecure products at the highest standard

Energy

Ensuring energy security by easily managing files

CORE SCOPE

**Google Workspace
Synchronization &
Migration**

**Microsoft
Synchronization**

**Mission-Critical Sync /
Integration**

**Dynamics 365 / SharePoint
Document Management
Suite**

**Salesforce
Integration**

**Proven Data
Authenticity**

**Ultima Secure Software
Integration**

Business Continuity Plan

OUR MAIN SOLUTIONS

CB Dynamics 365 to SharePoint Permissions Replicator

Sync files from Dynamics 365 to SharePoint with authorized access only.

CB Exchange Server Sync

Easily synchronize calendars, email inboxes, and calendars across different mail servers.

Truth Enforcer

Verify data integrity and provide immutable proof of authenticity for your digital information. Integrates out-of-the-box with SharePoint and Salesforce

Drag & Drop and Metadata for Dynamics 365 CE

Manage metadata via an enhanced Dynamics 365 documents grid.

CB Exchange Server Sync for Google Workspace

Easily synchronize calendars, email inboxes, and calendars across different mail servers.

Truth Verifier

Web-based file authenticity verification, secured by blockchain and designed with privacy-first, API-ready integration.

SharePoint Structure Creator

Improve folder naming and structure, and overcome permissions limitations.

Secure Sync for SharePoint

Document synchronization for multiple SharePoint installations, enabling efficient collaboration, backup, and migrations.

Document Extractor built for the Salesforce platform™

Unlock efficient and cost-effective file storage by seamlessly transferring files to SharePoint.

CB Dynamics 365 Seamless Attachment Extractor

Easily extract attachments from Dynamics 365 and store them securely in SharePoint.

Secure Sync for Google Drive & SharePoint

Unified sync for Google Drive and SharePoint, enabling collaboration and streamlined migrations.

Connect Bridge

Secure software integration without complex coding, turning SQL queries into API calls for reliable and compliant connections.

ABOUT US

Thomas Berndorfer, CEO

A serial entrepreneur with more than 25 years' experience in IT and business applications. A mastermind behind Connecting Software's innovative products and an easy-to-use integration platform.

Born in Austria and having grown in Germany, he combines Viennese charm and German workaholism. Openly calls company's products 'unsexy software' but proudly sells them to thousands of customers around the world.

Kiril Zhuklinets, CTO

A tech enthusiast with 20 years of experience in the IT world, he is always looking for the latest innovations to level up his game.

He has extensive experience in Agile, SAFe, Lean and Kanban methodologies, holds ITIL, Azure Solution Architect, and Microsoft .NET Developer certifications and believes that everything should be "DevOps-ed" and automated.

Born in the USSR (modern-day Ukraine), he spent most of his life in Russia before finding paradise on Madeira island, Portugal.

Phillip Frangandonis, CFO

With a keen analytical mind and strong financial acumen, Phillip's journey in the world of numbers and strategic financial planning has brought him to the heart of Connecting Software as our Chief Financial Officer since August 2021.

With a profound passion for precision and an eye for detail, Phillip's expertise lies in turning financial complexity into strategic opportunity, ensuring our growth is both sustainable and scalable.
